FOR IMMEDIATE RELEASE

New Roundabout Configuration In Effect at State Route 12/113 Intersection Starting June 1, 2019

SOLANO COUNTY—Caltrans is scheduled to install a roundabout configuration at the intersection of State Route 12 (SR-12) and State Route 113 (SR-113) near Rio Vista in Solano County the evening of Friday, May 31. Construction on the roundabout is expected to be completed in the fall.

One lane on SR-12 and one lane on SR-113 will be temporarily closed at 8:00 PM May 31 at the intersection to accommodate installation of the roundabout configuration. The lanes will re-open at 8:00 AM June 1 with the roundabout configuration in place.

The flashing traffic signal at the SR-12/113 intersection will remain in place, and the stop sign at the intersection of Birds Landing Road and SR-12 and the intersection of SR-113 and SR-12 will also remain in place. Traffic approaching the newly installed roundabout configuration from both directions of SR-12 should yield to any vehicles in the roundabout. Yield signs will be in place.

The speed limit in the roundabout area is 25 mph and the California Highway Patrol will be conducting extra enforcement during construction.

Caltrans has also scheduled temporary intermittent overnight lane closures about a half-mile before and after the intersection between Wednesday, May 29 and Thursday, May 30 for prep work. One lane will be open on each highway at all times.

- May 29: One lane on each highway closes at 8:00 PM, re-opening at 5:00 AM May 30
- May 30: One lane on each highway closes at 8:00 PM, re-opening at 5:00 AM May 31
- May 31: One lane on each highway closes at 8:00 PM, re-opening at 8:00 AM June 1

There will be one-way traffic control with a pilot car to guide traffic during the temporary lane closures. The lane closures are temporary and will only take place at night. Most of the work on the roundabout will be done during the day starting Monday, June 3. Daytime work will necessitate lane shifts but not lane closures.

The speed limit in the roundabout zone is 25 mph. Motorists should expect delays and exercise caution.
